DETAILED ACTION

1. Claims 1-20 have been examined.

Claim Rejections - 35 USC § 102

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claim 8 is rejected under 35 U.S.C. 102(a) as being disclosed by Kashyap [US Pub US2003/0021223].

Regarding claim 8, Kashyap disclosed "Network Node Failover Using Path Rerouting By Manager Component of Switch Port Remapping" using channel adapter (418 of Fig 4) for data transfers through rerouting incase of a node failure in a network such as Infiniband subnet having a subnet manager (SM) [1024 of Fig 12]. Kashyap further disclosed a host node comprising plurality of channel adapters (CA) and ports to support data transfers in a subnet having a subnet manager [paragraph 0030] that communicates with agents to enable one or more entities to send and receive data messages of management services on the host node [paragraph 0049], via the subnet and a path rerouting (or redirection) manager to implement redirection [paragraphs 0050-0052].

Allowable Subject Matter

2. Claims 1-7, 17-20 are allowed.

Art Unit: 2664

3. Claims 9-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art in reference here is Kashyap.
